NAHIP Advisory Committee Annual Meeting 2024

Agenda Item 1.1

Last updated: 14 May 2024

Prepared by M Leyden

PROGRESS ON NAHIP ADVISORY COMMITTEE ACTION ITEMS
JUNE F2F 2023 MEETING

Item	Description	Who	When	Status
1	Update the NAHIP 21-22 Status Report and circulate to the Committee.	AHA	July 2023	Completed
2	Update the AHSQ production process to send ACDP data to jurisdictional coordinators three weeks before data is due.	AHA	July 2023	Completed
3	Coordinate a review of AHSQ during 2023-24 to ensure it is fit for purpose given planned data changes. DAFF to begin discussions internally.	AHA	June 2024	In Progress
4	Work internally with its Communications team and with DAFF to determine whether target audiences (specific trading partners) are accessing the report, and to determine a benchmark for success is in relation to readership levels. Include this information in the 22-23 Status Report	AHA	August 2023	Complete. Included under Agenda Item 1.2.
5	Raise the Committee's concerns about the increased risk of high path AI with the Surveillance and Epidemiology Working Group.	AHA	August 2023	Completed
6	Document where wildlife and feral animal data is reported between eWHIS, NAQS and NAHIS databases.	WHA & NAQS	October 2023	Outstanding.
7	Update Business Plan to include identified risks.	AHA	August 2023	Completed
8	Provide guidance to jurisdictional coordinators on what needs to be included in the annual NAHIP coordinator reports.	AHA	August 2023	Completed. Included in the paper template.
9	Schedule the virtual NAHIP meeting for late August/early September 2023 for discussion of the 2022-23 coordinator reports.	AHA	September 2023	Completed
10	AHA and PHA to send out the updated version of the draft NAHIP NNDI data standards for AUSPestCheck® for the NAHIS NNDI to the Committee for review and endorsement.	AHA/PHA	July 2023	Completed
11	Jurisdictions to identify representatives for the subgroup to address lab standards and definitions of results if interested.	Jurisdictions	September 2023	Completed
12	Share syndrome list with AHA to compare to the list of 26 in NAHIS workbook in the development of the syndrome list in the NAHIP NNDI data standard.	QLD-completed AHA to progress further	July 2023 October 2023	Completed
13	Contact the Surveillance and Epidemiology Working Group, and to express that the Committee has identified that there is value in having data about clinical syndromes reported nationally.	AHA	August 2023	Completed

14	The 'laboratory standards' subgroup of the Committee to document standard lab tests for key nationally notifiable diseases and develop criteria for reporting against the 'status' or outcome of the investigation based on results of laboratory testing for circulation to the Committee.	Documentation of standard lab test types commenced by two voluntary jurisdictions, as agreed during the NAMP TC meeting. Intent is to discuss potential use of such a table with jurisdictions at first subgroup meeting. Subgroup first Meeting	July 2023 November, 2023	In progress. Update included under Agenda Item 2.3
