

FOR INFORMATION/ DISCUSSION

NAHIP Advisory Committee Teleconference Meeting 2023

[Use term appropriate to the paper]

Agenda Item 1.1

Last updated: **30 August 2023**Prepared by *Emma Watkins***Tasmania NAHIP coordinator report 2022-23****RECOMMENDATION**

1. That the NAHIP Advisory Committee NOTE the feedback as provided by Tasmania in this report

BACKGROUND

2. Tasmania reports data quarterly via the standard NAHIP reports, as per program requirements
3. Emma Watkins has coordinated NAHIP in Tasmania since 2021
4. Refinements and queries added to the Labware systems have improved efficiency of collation, analysis and reporting of data – however, it is still a laborious manual process subject to human error, and therefore requiring careful cross checking.

DISCUSSION

The planned AUSPestCheck funded project to link Labware-LIMS is still in train, for implementation in the second half of 2023, and will hopefully lead to increased efficiency in reporting.

FINANCIAL ACTIVITIES

5. Not applicable

FEEDBACK

- 6.
