

## FOR INFORMATION

NAHIP Advisory Committee Annual Meeting 2021

Agenda Item 3.1

Last updated: **15 November 2021**

Prepared by *E. Kelly*

## Western Australian NAHIP coordinator report 2021

### RECOMMENDATION

1. That the NAHIS Advisory Committee:
  - a. NOTES Western Australia's activities for 2020-21

### BACKGROUND

2. WA has fulfilled its commitment to NAHIP and AHSQ for 2020-21.
3. WA believes that NAHIP has an important role in supporting Australia's health status certification for export market access.

### DISCUSSION

4. WA uploaded data to the NAHIP database and provided data for AHSQ for all reporting quarters in 2020-21.
5. WA provided one feature article and one case report in 2020-21.
6. WA has previously accessed and summarized data from LIMS for NAHIP reporting and from WA's Biosecurity Intelligence Platform to retrieve data for AHSQ summary tables. Additional functionality is being developed to analyse and report data in a transparent and consistent manner.

### FINANCIAL IMPLICATIONS

7. Nil

### CONSULTATION/COMMUNICATION

8. N/A

### NEXT STEPS/ACTIONS

9. No actions required at this stage.

### FEEDBACK

| Q1 My organisation's needs and expectations of the NAHIP are being met.                     |       |           |          |                   |
|---------------------------------------------------------------------------------------------|-------|-----------|----------|-------------------|
| Strongly agree                                                                              | Agree | Undecided | Disagree | Strongly disagree |
| NAHIP functions satisfactorily to meet jurisdictions' data submission requirements to DAWE. |       |           |          |                   |

| Q2 My organisation is satisfied that the outputs of NAHIP, such as the Animal Health in Australia report are Animal Health Surveillance Quarterly, are credible and robust. |       |           |          |                   |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-----------|----------|-------------------|
| Strongly agree                                                                                                                                                              | Agree | Undecided | Disagree | Strongly disagree |
| AHSQ has benefitted from the national agreement on AHSQ summary charts, which has improved consistency of reporting across jurisdictions.                                   |       |           |          |                   |

| Q3 The format and protocols in place for uploading and transferring national surveillance data are fit for purpose.                                                                                                                                                                                      |       |           |          |                   |
|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-------|-----------|----------|-------------------|
| Strongly agree                                                                                                                                                                                                                                                                                           | Agree | Undecided | Disagree | Strongly disagree |
| The current spreadsheet could benefit from a similar style of instruction as the new AHSQ summary tables to ensure consistency in reporting across jurisdictions (e.g. separate document providing clear explanation on what to include and what is out of scope, rather than the detailed spreadsheet). |       |           |          |                   |

| Q4 NAHIP satisfies national surveillance data and reporting requirements. (Please outline any requirements not being met). |       |           |          |                   |
|----------------------------------------------------------------------------------------------------------------------------|-------|-----------|----------|-------------------|
| Strongly agree                                                                                                             | Agree | Undecided | Disagree | Strongly disagree |
| WA has provided data to NAHIP as advised by DAWE to meet national surveillance data and reporting requirements.            |       |           |          |                   |
