Item	Description	Who	When	Status
1	Document where wildlife and feral animal data is reported between eWHIS, NAQS and NAHIS databases.	WHA and NAQS	May 2025	Outstanding - to be carried over.
2	Continue discussions on the reporting of NAQS data in APC.	AHA and NAQS	May 2025	Superseded - AHA and NAQS working on an updated data project in for Q2 2025 (Apr-Jun) reporting.
3	Circulate the Analytics Report to the Committee out of session with inclusion of comparison of article downloads from international vs Australian audiences, and numbers of new vs unsubscribing for mail chimp, and confirm whether analytics by country from Mailchimp are available.	AHA	June 2024	Completed
4	Seek advice from its communications team on feedback on the new digital report layout/style, which is being adopted by AUSVETPLAN, and the analytics available for that type of report.	AHA	September 2024	Closed - as the online format was not suitable to implement for reports of this type.
5	Circulate the extensive industry paper out of session.	AHA	June 2024	Completed
6	Share its case definitions for priority diseases with the committee	WA	September 2024	Completed
7	Advise on priority diseases and hosts where additional negative case definitions would be valuable and AHA to facilitate looking at how that data can be incorporated into the national database system.	DAFF	August 2024	Superseded - by action item 1 from virtual October NAHIP meeting.
8	Circulate the minutes from the SCAHLS/NAHIP meeting out of session along with the comparison work done by Qld in relation to list its new and disparate syndromes on the syndrome list and associated broad case examples.	AHA	June 2024	Completed
9	Request its SCAHLS representative to consider WHA feedback on revision of the syndrome list	Qld	September 2024	Completed
10	Propose to AHC the implementation of the new data standards for NNDI in CAHD.	AHA	August 2024	Completed
11	Circulate an updated workbook with the new data standard for NNDI to the committee for approval,	AHA	August 2024	Completed

	including identifying differences between data fields between the APC and proposed CAHD data standards (e.g. LGA and UID).			
12	Flag with PHA and DAFF the need for an update to be provided to AHC on the delay in the system development of APC, and further information on the proposed ongoing costs associated with APC.	AHA	July 2024	Superseded - due to the cessation of AUSPestCheck.
13	Update wording in the data field around state lab testing to reflect that SA contracts a private lab.	AHA and SA	September 2024	Completed
14	Implement updating of the disease list in NNDI for the next reporting period to reflect changes to the national list.	AHA	August 2024	Completed
15	Raise with the AHC secretariat feedback from the committee that more proactive communication, for example in relation to the publication of the updated national notifiable diseases list., should be provided to AHC members, and to request inclusion of the NNDL updates in Around AHC.	AHA	July 2024	Completed
16	Circulate the summary of updates to the national list to the NAHIP Committee.	AHA	August 2024	Completed
17	Confirm diseases, markets or populations that are a priority for trading partners and AHA to mock up what this data would look like on a summary page.	DAFF	September 2024	Outstanding - carried over for addressing during Agenda item 5.1.
18	Mock up what inclusion of EAD hotline, SWF and NAMP would look like on the summary page, and what the page would look like if just clinical cases were used for the current summary page layout.	AHA	September 2024	Outstanding - carried over for addressing during Agenda Item 5.1.
