ACDP VIROLOGY REPORT 2024-25

RECOMMENDATION

1. That the NAMPTechnical Committee NOTES:
 - a. Testing Performed by ACDP for WA, QLD, NT & VIC in 2024-25
 - b. Notes on additional activities and investigations conducted by ACDP

BACKGROUND

- ACDP performed confirmatory molecular and serological testing of samples (whole blood, plasma/sera and virus isolates) from WA, QLD and NT, as well as characterizing positive samples by neutralization assay, sequencing and/or virus isolation, as appropriate. ACDP also assisted VIC to investigate a potential non-specific ELISA reactor.
